2350 Santa Rita Road
Pleasanton, CA 94566
(925) 484-2271

www.NorCalCementMasonsApprenticeship.org

WE ARE LOOKING FOR PEOPLE WHO:

- Enjoy working with their hands and take pride in what they can build
- Don't mind putting in a honest days work for an honest days pay
- Can make a commitment and know what it takes to follow through

If this sounds like you, and if you are making important future plans, look into the Northern California Cement Masons Apprenticeship Program.

THE PROGRAM REQUIREMENTS

To apply for the Northern California Cement Masons Apprenticeship Program you must be at least eighteen (18) years of age and must be physically able to perform the work of the trade.

APPRENTICESHIP MEANS TEAMWORK

It takes the combined efforts of Labor, Management, Government, and the Department of Education to create a training program that will keep up with today's building industry needs. Moreover, that is exactly what we have done.

APPRENTICESHIP MEANS ON THE JOB TRAINING

You will learn new skills by working on-the-job with experienced Journey person Cement Masons. You will master the tools of the trade with hands on practice. Daily you will build new skills and get paid as you learn.

APPRENTICESHIP MEANS PROFESSIONAL INSTRUCTION

The applications of concrete are explored during formal classroom instruction. History of Labor and Management, First Aid, Safety, Math, Blue Print, and Builders Level are all a part of the program. However, classwork is not limited to theory alone. As an apprentice, you will refine your finishing skills under personal guidance of an Instructor.

BENEFITS OF APPRENTICESHIP

The program takes three years to complete and is divided into six (6) periods. As you advance from each period to the next your hourly wage increases.
